Producing special interest video is an ideal sideline business. The market for DVDs is expected to reach \$49 billion by 2010 and this doesn't even include the explosion of web video! Most of the top videographers sell their own line of Special Interest DVDs. You should too because, unlike the video production business, the special interest video business lets you multiply your profits and sell products around the world from the comfort of your home. Learn how to choose a more profitable topic. And don't assume your video has to cost \$19.95. In this book you'll learn about DVDs that sell for hundreds, and even thousands of dollars. Now that's a sweet business! This \$20 book can make all the difference in your video career.

**ITEM #1007** book 324 pages. \$19.95 plus \$4.50 shipping.
